Career Objective

Aspiring software developer with a strong foundation in C++, Core Java, Python, and expertise in Data Structures and Algorithms. Proficient in web technologies (HTML, CSS, JavaScript), database management (MySQL), and eager to explore the world of machine learning. Seeking an entry-level software development role to apply my skills and contribute to innovative projects while continuously enhancing my programming expertise.

Education

Course	University/Board	specialization	Marks %
B. Tech	Abdul Kalam Technical University	Computer Science Engineering (AI)	75%
Intermediate	U.P Board	Physics, Chemistry, Maths	85.20%
High School	U.P Board	Science Stream	89.17%

Technical Skills

- Data Structures & Algorithms.
- Solid grasp of Object- Oriented Programming.
- Python.
- C++.
- Core java.
- HTML, CSS, JAVASCRIPT.
- Machine Learning.
- Database: MySQL
- Windows & XAMPP server.

Personal Information

- Date of Birth: 24 March 2004.
- Father's Name: Mr. Bankey Bihari Sharma.
- Gender: Male
- Language: Hindi & English.

Projects-

- **Portfolio Website –**

Created a personal portfolio website to showcase my skills, projects, and resume. Built using HTML, CSS, JavaScript, and Bootstrap for responsive design. Interactive design with smooth navigation. Portfolio section displaying a collection of coding projects. Designed for potential employers, clients, and anyone interested in my work. Sole developer and designer responsible for all aspects of the project. Received positive feedback from visitors, leading to freelance opportunities and job interviews.

- **Online Calculator-**

Developed a basic calculator application for performing arithmetic operations quickly and efficiently. Supports addition, subtraction, multiplication, and division. User-friendly interface with a numeric keypad and result display. Performs both basic and complex calculations. Clear button for easy input correction. Compact and lightweight for quick access and usage. Built using HTML, CSS, and JavaScript for a responsive web-based calculator.

- **TO-DO Application-**

Task Ease is a user-friendly To-Do application designed to simplify task management, helping users stay organized and productive. Task Ease has enabled users to streamline their daily tasks, meet deadlines, and maintain an organized workflow, leading to improved productivity and time management.

Declaration-

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge.
